25 October 2009

Red Hill Gallery proudly welcomes Sydney based sculptor
Stephen Glassborow

to present this 5th major solo Exhibition featuring his new, exquisite
Limited Edition Bronzes.

Stephen holds a lifelong passion to work with the human form and his
figurative sculptures are now recognised internationally with his
impressive bronzes owned by art lovers world-wide. He captures the
figure in a beautiful blend of the real and the abstract and is positively
influenced by Art Deco figurative sculpture.

This is a “must see” presentation by Stephen and is certainly an
excellent opportunity to acquire a spectacular piece of art to enjoy
now and to proudly add to your collection.

“Sculpture today has no rules – anything can be used and explained.
Using the figure, however, requires a discipline and a skill that takes
years to master. Being a contemporary sculptor, I like to extend the
boundaries of more traditional sculpture by overlapping the figures
with current aesthetics” Stephen.
